FBS Humate Plus™

DESCRIPTION

Highly concentrated 19% Humic Acids. Humic acids may aid in the uptake of micronutrients.

DIRECTIONS FOR USE

For best results, use watered-in applications. May be applied via irrigation system or prior to irrigation. Apply enough water to move the product into the area of active rooting, but not excessive amounts that may leach. Use the higher label rates with surface and flood irrigation.

Always dilute FBS Humate Plus before tank-mix as it is a concentrated material. FBS Humate Plus is compatible with many fertilizers however, pre-dilution should be done (a range of 4:1 down to 1:1 dilution with water). Do not mix FBS Humate Plus with fertilizers that contain calcium. Always conduct a standard jar test before mixing with other products. Tank mix compatibility is impacted by water quality, which may vary by location. Confirm compatibility beforehand. Consult your local FBS representative for further questions.

RATES & TIMING FOR ALL CROPS

For orchards and vineyards apply **2 pints/acre** and for all other crops apply **1-2 pints/acre** any time during growing season; repeat as needed.

INSTRUCCIONES DE USO

Para obtener mejores resultados, usar aplicaciones por medio del agua. Puede aplicarse a tra-vés del sistema de riego o antes del riego. Aplicar suficiente agua para mover el producto al área de enraizamiento activo, pero no cantidades excesivas que puedan filtrarse. Usar las tasas de etiqueta más altas con riego por inundación y por superficie.

Siempre diluya FBS Humate Plus antes de la mezcla en tanque como es un material concentrado. FBS Humate Plus es compatible con muchos fertilizantes, sin embargo, se debe realizar una dilución previa (un rango de dilución de 4:1 a 1:1 con agua). La dilución de FBS Humate Plus con agua adicional antes de mezclar puede mejorar la compatibilidad. Realizar siempre una prueba de jarra estándar antes de mezclar con otros productos. La compatibilidad de la mezcla del tanque se ve afectada por la calidad del agua, que puede variar según la ubicación. Confirmar la compatibilidad de antemano. Consultar a su representante de FBS si tiene más preguntas.

TASAS Y MOMENTO PARA TODOS LOS CULTIVOS

Para huertos y viñedos, aplicar **2 pintas de galón / acre** y para todos los demás cultivos aplicar de **1 a 2 pintas de galón / acre** en cualquier momento durante la temporada de crecimiento; re-petir según sea necesario.

WARNING

READ ENTIRE LABEL BEFORE USE | KEEP OUT OF REACH OF CHILDREN

WARNING | HAZARD STATEMENTS Harmful if swallowed. Causes skin irritation. Causes serious eye irritation.

AVISO PELIGRO Nocivo si se ingiere. Provoca irritación cutánea. Provoca irritación ocular grave.

PRECAUTIONARY STATEMENTS Wear protective gloves/clothing and eye/face protection. Wash skin thoroughly after handling. Do not eat, drink or smoke when using this product. **IF ON SKIN:** Wash with plenty of soap and water. If skin irritation occurs, get medical advice/attention. Take off contaminated clothing and wash before reuse. **IF IN EYES:**

Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. If eye irritation persists, get medical attention. **IF SWALLOWED:** Rinse mouth. Call a POISON CENTER or doctor/physician if you feel unwell. Dispose of contents/container in accordance with local/national regulations.

WARRANTY AND CONDITIONS OF SALE Manufacturer warrants that this material conforms to the chemical description hereon and is reasonably fit for use as directed.
