

SYMVADO[®] GRANULAR

Granular for use in conventional and organic production containing MycoApply[®] to promote:

- Root mass expansion
- Nutrient use efficiency
- Drought tolerance

CONTAINS NON-PLANT FOOD INGREDIENTS:

Soil Amending Guaranteed Analysis

0.03% Total Active Ingredients

Funneliformis mosseae (33.1 propagules/g)

Rhizophagus intraradices..... (33.1 propagules/g)

Claroideoglomus etunicatum..... (33.1 propagules/g)

Claroideoglomus claroideum..... (33.1 propagules/g)

99.97% Total Inert Ingredients (Clay as carrier)

“THIS PRODUCT IS NOT A PLANT FOOD”

Information regarding the contents and levels of metals in this product is available on the internet at: <http://www.aapfco.org/metals.html>

STORAGE CONDITIONS:

Product can be stored in a cool, dry area without loss of viability.

DANGER: Do not handle until all safety precautions have been read and understood. Do not breathe dust. If exposed or concerned get medical advice/attention. Dispose of contents/container in accordance with local/regional/national/international regulations. **IF ON SKIN:** Wash thoroughly with soap and water. California Proposition 65: This product contains a chemical (quartz) known to the state of California to cause cancer. Quartz is a form of crystalline silica.

GENERAL INFORMATION:

Symvado Granular is a biological product that enhances plants and roots. *Symvado Granular* contains a four species consortium of arbuscular mycorrhizal fungi (AMF) that are scientifically selected for different soils, environments, and agricultural cropping systems to support plants throughout the crop cycle. AMF form symbiotic associations with most agriculturally important crops.

Symvado Granular improves nutrient acquisition and use efficiency, optimizes fertilizer availability, and improves water acquisition to mitigate abiotic stress that contributes to reduced crop productivity.

Symvado Granular contains 132 propagules per gram.

¹Arbuscular mycorrhizal fungi do NOT form associations with the following crops: blueberry, cranberry, lingonberry, pecan, hazelnut, brassica, and beet. For additional information consult your crop advisor or Valent BioSciences (1-877-696-4204).
