Transit Soil®

DIRECTIONS FOR USE

For best results, use watered-in applications. May be applied via irrigation system or prior to irrigation. Apply enough water to move the product into the area of active rooting, but not excessive amounts that may leach. Use the higher label rates with surface and flood irrigation. Shake well and/or agitate before use.

Transit Soil is compatible with most fertilizers regardless of pH. However, a standard jar test is recommended before tank mixing.

RATES & TIMING

In Furrow or Pop-up Fertilizers: Mix **6-8 ounces/acre** with applications near the seed.

Banded, Broadcast, & Irrigation: Apply **8-12 ounces/acre**; higher rates of fertilizer require the higher label rates.

Dry Granular Fertilizers: Impregnate **1.0-7.5 quarts** onto each ton of dry fertilizer depending on the final application of fertilizer in the field. Final applied fertilizer should carry **8-14 ounces/acre** of Transit Soil.

Walnuts & Cherries: **10-16 ounces/acre**

INSTRUCCIONES DE USO

Para obtener mejores resultados, usar aplicaciones con agua. Puede aplicarse a través del sistema de riego o antes del riego. Aplicar suficiente agua para mover el producto al área de enraizamiento activo, pero no en cantidades excesivas que puedan filtrarse. Usar las tasas de etiqueta más altas con riego por inundación y por superficie. Agitar bien y / o agitar antes de usar.

Transit Soil es compatible con la mayoría de los fertilizantes independientemente del pH. Sin embargo, se recomienda una prueba estándar de jarra antes de mezclar en el tanque.

TASAS Y MOMENTO TASAS Y MOMENTO

En Fertilizantes Emergentes o de Surco: Mezclar de **6 a 8 onzas/acre** con aplicaciones cerca de la semilla.

En Bandas, Al voleo & Riego: Aplicar de **8 a 12 onzas/acre**; Las dosis más altas de fertilizante requieren las dosis más altas de la etiqueta.

Fertilizantes Secos Granulares: Impregnar de **1.0 a 7.5 cuartos de galón** en cada tonelada de fertilizante seco dependiendo de la aplicación final de fertilizante en el campo. El fertilizante aplicado final debe contener de **8 a 14 onzas/acre** de Transit Soil.

Nueces y Cerezas: **10 a 16 onzas/acre.**

WARNING

READ ENTIRE LABEL BEFORE USE | KEEP OUT OF REACH OF CHILDREN

HAZARD STATEMENTS Harmful if swallowed. May be harmful in contact with skin.

AVISO PELIGRO Nocivo si se ingiere. Puede ser nocivo en contacto con la piel.

PRECAUTIONARY STATEMENTS Wear protective gloves/protective clothing/eye protection. Wash skin thoroughly after handling. Do not eat, drink or smoke when using this product. **IF SWALLOWED:** Rinse mouth. Call a POISON CENTER or doctor/physician if you feel unwell. Dispose of contents/container in accordance with local/national regulations.
